

**Unusual Underprints** Bulletin 313 Pg.6, 11 & 24; 314Pg.8

**JACK BRANDT** has the "UNITED/BAKERS/BREAD" underprint, in violet, on a 1½d KGV perfin - A/&C (A1300.02). He suspects this was an advertising technique of the company but, although the underprint looks the same, he doubts if the same rubber stamp would have been used from 1892 to 1912 or later. It also begs the question - why printed on a perfin of a different company?

Jack also has similar underprints, but from stamp dealers. The "ERRINGTON AND MARTIN" had many types of underprints (3 shown) and they put them on worldwide stamps, including perfins. The 'T.6.' is from Spain and the 'J&C' from Roumania.

The other two, "W.C. PROUDFOOT" and "W.J.VITALE", are from Canada and US Revenues.

The 'NFB' is on an early Canadian (cancel 1898) and needs more research.
